

WELDING AND METAL FABRICATION

According to the Department of Labor, the average pay for a welder in Wisconsin is \$36,000, and welders are in great demand in the production, maintenance, construction, manufacturing, and servicing industries. Now is the time to train for a career in welding. This pathway can be completed in as little as 12 months, putting you on the fast track to a successful career in welding.

The Stainless Steel Welding Basics (GTAW) certificate introduces students to the specialty of stainless steel, allowing them to learn at their own pace. All courses in the Stainless Steel Welding Basics GTAW certificate program directly transfer to the Welding technical diploma. The Welding technical diploma then integrates significantly more hands-on learning opportunities to create a well-rounded welding skillset in a wide variety of welding processes, such as shielded metal arc, gas tungsten arc, gas metal arc, submerged arc, oxyacetylene cutting and brazing, plasma arc, and arc-air cutting. Students are prepared to take welding certification tests upon completion of this pathway.

12 WEEKS

Entry-Level Welder
\$16/hour

Stainless Steel Welding Basics (GTAW) Certificate

Marshfield Campus
Tuition Cost: \$1,312
Monthly start dates
Flexible lab options

Build On Your Training. Build On Your Opportunities.

ONE YEAR

Welder/Fabricator
\$18/hour

Welder/Metal Fabrication Technical Diploma

Wisconsin Rapids Campus
Tuition Cost: \$4,750

98% OF GRADUATES ARE **SATISFIED** OR **VERY SATISFIED** WITH THEIR EDUCATION

ENROLL. LEARN. SUCCEED.

It's simple. Students receive hands-on education full of individual attention from faculty with the occupational expertise and technology to train students for cutting edge careers. We foster a great learning environment by providing access to high-tech facilities, libraries, and computer labs.

88% OF GRADS ARE **EMPLOYED WITHIN 6 MONTHS**
