

Career Pathways offer new ways to achieve your education goals. Instead of studying just one program, the Career Pathways model links related academic programs in a sequence. Each program offers direct job preparation AND a path to the next higher academic program.

Child Care

This program provides training in planning and implementing developmentally appropriate curriculum for specific age levels, using positive guidance techniques to manage an early childhood classroom, providing for the health, safety and physical needs of the children, and working with parents to provide a link between the Center and the home.
